RAHUL YADAV

Frontend Developer | React · TypeScript · Micro-Frontends
Pune, Maharashtra, India | rahulyadavaudi06@gmail.com
LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Frontend Developer with **nearly 5 years** of experience across Wipro, GlobalLogic and Virtusa, building scalable, high-performance web applications with **React**, **TypeScript** and **JavaScript**. Currently developing features on a **single-spa micro-frontend** platform for a leading US insurance client. Experienced in reusable component libraries, performance optimisation, unit testing and CI/CD.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend: React, Redux, TanStack Query, React Router, single-spa (Micro-Frontends), Material-UI, Tailwind CSS, Styled Components
Backend & Data: Node.js, Express.js, MongoDB, RESTful APIs
Testing & Analytics: Jest, React Testing Library, ESLint, SonarQube, Adobe Analytics, Adobe Launch
Tools & DevOps: Git, GitHub, npm, Webpack, Vite, Jenkins, Vercel, Netlify, Postman, Figma

PROFESSIONAL EXPERIENCE

Virtusa — Senior Software Engineer *Feb 2026 – Present*
Leading US insurance client · Customer policy-servicing platform

- Develop **React** features across multiple **single-spa micro-frontends** built on a shared component library and design system.
- Build policy-servicing features in collaboration with backend, UX and product teams, from design hand-off to release.
- Implement web analytics tracking with **Adobe Analytics** and **Adobe Launch**.
- Write **Jest** unit tests to meet code-quality gates (**SonarQube**) and support releases through **Jenkins** CI/CD.

GlobalLogic — Engineer *May 2025 – Dec 2025*
Enterprise React and Node.js applications

- Developed features for enterprise **React** and **Node.js** applications and contributed to architecture discussions on **scalability** and **maintainability**.
- Built **reusable component libraries** and **micro-frontends** used across multiple product lines.
- Applied team **coding standards** and **performance benchmarks** through code reviews.

Wipro — Project Engineer *Nov 2021 – May 2025*
E-commerce platform

- Built reusable **React** components and **custom hooks**, cutting UI development time by **20%** and keeping the interface consistent.
- Improved performance with **lazy loading**, **code splitting** and image optimisation, reducing page load time by **40%**.
- Partnered with UX and backend teams on UI enhancements that increased user engagement by **25%**; integrated product data through **RESTful APIs** for real-time updates.
- Built responsive layouts with **CSS Grid** and **Flexbox**, custom **Material-UI** themes, and mentored junior developers through **code reviews**.

PROJECTS

FlowSpace | React, TypeScript, TanStack Query, Socket.io, Express, MongoDB | GitHub | Live *2026*

- Trello-style team workspace with board, table and calendar views; **real-time updates** over **Socket.io**, **role-based permissions** enforced on every API route, @mention comments, notifications and a one-click demo workspace.

TravelNest Booking | React, Tailwind, Express, MongoDB, Netlify Functions | GitHub | Live *2026*

- Airbnb-style booking app with **JWT** auth, listing search, photo galleries, a host dashboard and server-side pricing with **double-booking protection**; Express API deployed as **serverless functions**.

Memories | React, Redux Toolkit, Material UI, Express, MongoDB | GitHub | Live *2026*

- Social app for travel moments with comments, tags, search and profiles; **optimistic UI** updates through **RTK Query** cache patching.

Blogspace | React, Tailwind, Express, MongoDB, AWS S3, Netlify Functions | GitHub | Live *2026*

- Blogging platform with a rich-text editor, drafts, writer dashboard, nested comments and notifications; secured the API (author-only edits, **sanitised content**) and cut the main bundle by **50%** with lazy loading.

CERTIFICATIONS & CONTRIBUTIONS

Meta Front-End Developer Professional Certificate – Meta, Coursera (2026)
Generative AI for Everyone – DeepLearning.AI, Coursera (2026)
Contributor to **MDN Web Docs**: improved the "Comparing dates and strings" section of the JavaScript reference.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science and Engineering *2021*
AISSMS College of Engineering, Pune · CGPA: 7.4/10
